# Hello!

We are the people behind the Sisi Baik Project, a group of not-so-young people who possess empathy and a great sense of care for other humans.

Sisi Baik was officially established in 2020 in response to the COVID-19 pandemic's impact on society. Running Sisi Baik while working as employees turned out to be quite challenging.

That is why in 2024, we decided to leave our jobs and dream big with the Sisi Baik Project, leveraging our empathy through professional abilities in communication, creativity, and media.

**This is us now**! deciding to become a working team to create social campaigns professionally for companies, institutions, organizations, individuals, and anyone else who is moved to contribute to social issues.

Understanding real social issues and turning them into campaigns to increase others' participation and create an impact is the goal of every piece of our work.

# Edukasi Dasar

(2005 - 2019)

**LSM Edukasi Dasar** is a free school founded by **Tien Suryantini** in 1993 to break the cycle of illiteracy in her community.

This free school was later formalized as an NGO in 2005. Most of our team members work behind the scenes at LSM Edukasi Dasar, handling 45 children each year to be placed in formal schools.

The operational costs of this school are largely covered personally and through individual donations. The school had to close due to the pandemic and a continuous shortage of teachers.

# #TanganBercerita Campaign (2019)

## The Brief :

- Ku Ka is a marketplace that dedicates its platform exclusively to curated local products. As part of its effort to promote local products, Ku Ka hosts an offline bazaar twice a year called The Local Market.
- Ku Ka requires a social campaign that can support the interest of visitors to The Local Market while strengthening Ku Ka's positioning as a marketplace specializing in local products.

## The Solution :

Thus, the Social Campaign "Tangan Bercerita" (Storytelling Hands) was born by **Wiwis**, who at the time was the Marketing Communication of Ku Ka and is **now the Program Director of the Sisi Baik Project & Peoples.**

"Tangan Bercerita" is a **statement that there is always value and a story behind the hands of local craftsmen** that cannot be replaced by any machine, no matter how advanced. This is the true strength of Ku Ka as a showcase for the stories of craftsmen's hands with all their processes," said Wiwis.

To make this photo competition more credible and reach a potential audience, Ku Ka is collaborating with Gue Ari Gallery, a book community and photography workshop owned by Mas Ari, one of the photo book practitioners in Indonesia.

# Beli dan Bagikan

(2020)

Formed amidst hunger and the pandemic...

*“We’ve been eating Indomie for four days straight, Mbak.”*

That short message came from Ibu Welas.

sisibaikproject

Ibu Welas is the 50 y.o cafeteria lady at the office who employs two of her relatives from the village. She has been unable to sell food for a week since the office shifted to working from home. When she tried to sell food during the first two days of the PSBB (large-scale social restrictions), her dishes spoiled without any buyers.

Finally, we came up with the idea of **pooling our money to order food from Ibu Welas and distributed to street workers** we knew were affected.

Believing there are other people like Ibu Welas out there who usually sell food and depend on office or school activities, we started gathering information about other cafeterias whose food we could purchase and then distribute to workers struggling on the streets.

# Patungan Imun (2021)

## 1 dari setiap 6 orang

mungkin akan menderita sakit yang parah, seperti disertai pneumonia atau kesulitan bernafas, yang biasanya muncul secara bertahap.
Source: FAQ Kemkes.go.id

## PENYEBABNYA?

Sistem daya tahan tubuh yang lemah dapat menyebabkan respons awal imun terlambat dan respons imun susulan tertunda. Sehingga, virus bisa berbiak dan menyebar ke sel lain tanpa kendali.
Source: Kompas.com

## SAYANGNYA

Tidak semua orang beruntung memiliki imun tubuh yang baik dan tidak semua orang siap meningkatkan daya tahan tubuh pada saat sudah terpapar.

Untuk beberapa orang, vitamin, suplemen dan imun booster sesuatu yang mudah dicari tapi untuk beberapa lainnya bahkan tidak sanggup membeli.

Sementara beberapa penyintas mengaku panik saat pertama kali mengetahui positif terinfeksi COVID 19 dan respon Puskesmas untuk vitamin dan obat gratis tidak terlalu cepat.

## Yuk Patungan!

Menyadari imun / daya tahan tubuh menjadi hal primer dalam menghadapi pandemi, Patungan Imun merupakan sebuah inisiatif mengumpulkan bantuan berupa vitamin dan suplemen yang akan disalurkan kepada para penyintas COVID19 tanpa gejalan atau gejala ringan yang membutuhkan.

Inisiatif ini bertujuan untuk :
Meringankan beban para penyintas COVID19 dan keluarga dalam hal pengadaan vitamin, suplemen dan imun booster lainnya.

Harapannya para penyintas tanpa gejala atau bergejala ringan bisa melakukan isolasi mandiri dengan peningkatan imun tubuh yang baik sehingga dapat lekas pulih.

Mengingat kapasitas Rumah Sakit Rujukan sangat terbatas dan telah keterbatasan tenaga kerja medis saat ini.

For some people, Opor is a dish that automatically appears on the dining table every Eid al-Fitr, while for others, Opor can no longer be expected.

"Patungan Opor by Sisi Baik Project" is an initiative aimed at collecting Opor from friends who have sufficient or excess portions and distributing it to friends who do not have the opportunity to enjoy it.

## Patungan Opor Goes to Kos-Kosan

We are quite open to the situation on the ground. Two weeks after announcing Patungan Opor, we gained insight that many migrants are unable to return home for various reasons and therefore miss Opor during the holiday. Thus, we humbly present Patungan Opor Goes to Boarding Houses.

**Patungan SPP**
(2024)

As children in Indonesia grow older, it becomes increasingly difficult for them to pursue their dreams! According to BPS data, 1 out of 1,000 elementary school students drop out, and at the high school level, 13 out of 1,000. The Main Programs of the Sisi Baik Project will focus on providing Indonesian children with opportunities for education, pursuing their dreams, and improving their lives. We always say this is all to create #PeluangYangSama

Many students have high enthusiasm, but face financial challenges that prevent them from fully participating in the educational programs offered at their schools.

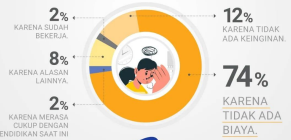

The Sisi Baik Project is here to support young people on their educational journey by initiating the "Patungan SPP" program. "Patungan SPP by Sisi Baik Project" is a social initiative aimed at gathering support from Good Citizens to help pay off the school fees of these students.

## Penerima SPP

**Rafli, 14 Tahun / Kelas 3 SMP**

Rafli putra dari Bapak Ichsan (Pedagang yang memasak untuk Patungan Opor). Rafli sekarang berada di kelas 3 SMP namun memiliki kendala pembayaran SPP setiap bulannya.

**Patungan SPP akan terus berjalan untuk menemani siswa/i lainnya :**

- Siswa di sekitar daerah operasional Sisi Baik yang terpetakan tidak mampu menyelesaikan urusan administrasi di sekolahnya.
- Individu yang mengajukan diri atau rekomendasi dari Warga Baik.

## Mekanisme Distribusi

Tim Sisi Baik akan berkomunikasi dengan setiap individu calon penerima Patungan SPP (baik secara langsung ataupun online) dan **mendampingi siswa/i ke sekolah untuk menyelesaikan administrasi sekolah.**
